

## Accent - “The Original Heavy Glass Shower Door”

### Silhouette

This “shoeless” version of the Accent slider is both modern and sophisticated. With no metal on the bottom of the glass this is the most “frameless” slider in the collection.

### Allure

The European styled hinges and handle, coordinated with the full length magnetic closure system, finish the styling of this door in a sophisticated manner, creating the perfect atmosphere for your bath.

### Euro

The undeviating surface of the Euro header and the innovative one piece adjustable towel bar defines the mild patterns used in the creation of this door. The European flair is amply represented with this strong yet subtle option.

## “The Original Heavy Glass Shower Door”

Long before Agalite introduced the Estate 3/8” and 1/2” door, we innovated and manufactured the original heavy glass doors, the 1/4” Accent Collection. The Accent collection features thru glass hardware, 1/4” thick glass, and a minimalistic metal frame to create a true frameless look while still maintaining a price that fits most remodel budgets.

The Accent swing doors incorporate a custom designed hinge that not only functions perfectly, but also entails design features unlike anything on the market today. You can achieve the look and appeal of a contemporary swing door without the weight and cost of a 3/8” door.

Accent sliders represent the elite level of this type of door. The options are numerous, whether it’s a glass type or metal color, a header style or a “shoe” decision, Accent sliders will meet your highest expectations.

The Accent Collection encompasses the features and benefits demanded by discerning modern day homeowners while maintaining design flexibility and offering the options traditionally found in the “heavy glass” product lines.

## “Easy Clean Glass Options”

Are you interested in having to clean your glass shower doors less often? Agalite offers ShowerGuard glass and ClearShield glass treatment..
